

# **WELCOME TO THE TRADING WORLD OF**

**NANNINGBOB**

**May 2, 2012**

Inside this folder is the 10.2 system. It is actually 6 years in the making and contains all my limited wisdom I have of trading.

1. Inside you will find.
2. Read this first 10.2.
3. Read the 10.0 booklet first if you have not. It gives you the basis of how I think. I did not update it for 10.2 so some of it will not apply and is outdated. However, to understand my thinking, reading this is important but not absolutely necessary.
4. I numbered the books from 1-6 for reading order. Books 2-5 can be read in any order however. Book 6 is the one discussing the different trades and will be the most important. Books 2-5 explain how I use the information of the indicators in book 6.
5. Extra booklets are included:
  - A. Weekly currency facts for volatility of currency pairs
  - B. Multi-Purpose Trade Manager (MPTM) manuel.
6. PUT THE EAs INTO YOUR EXPERT FOLDERS OF MT4 (8)
  - A. 3 buy EAs
  - B. 3 sell EAs
  - C. 25+10 MPTM
  - D. Standard MPTM
7. PUT THE INDICATORS INTO YOUR INDICATOR FOLDERS OF MT4 (15)
8. PUT THE TEMPLATES INTO YOUR TEMPLATE FOLDERS OF MT4 (2)
  - A. Blue Screen for volatility pairs 1-3
  - B. Misty Rose Screen for volatility pairs 3-5
9. RESTART YOUR MT4
10. PRACTICE ON A DEMO TO MAKE SURE EVERYTHING WORKS
11. HAVE FUN TRADING!
12. GET AN ATTITUDE KNOWING YOU JUST SAW THE MARKET CHANGE AND OTHERS DON'T KNOW IT YET.
