Problems :

A.) Multiple IBs in a Row
B.) Wrong Order Placement (too soon)

A.) If Multiple IBs show up in a row (back to back) , we only consider
   the first IB to place an Order

False:
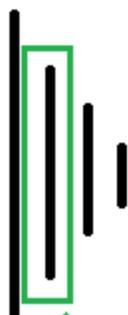

False2:

True:

Multiple IBs in a row

If there are Multiple Ibs in a row , we only take the first IB in the sequence...

we ignore the other IBs

conclusion, only one order is placed

Only Trade This

B.) I saw that the EA placed an Order on the Wrong Bar (Time)
   It took a trade on the 7 o clock bar wich is to soon.. as the 8 o clock bar isnt formed yet..
   it actually should start trading after the 8 o clock bar .. not before …
