

Installation

In the TREND MASTER folder, you will find the TEMPLATE folder.

Copy the file in the TEMPLATE folder to the **templates** folder of your trading platform.

Close all windows and run your MT4 program. You need to choose from any of these pairs to trade and focus on only one of them; EURUSD, GBPUSD, USDCHF, USDCAD, GBPJPY, CHFJPY, EURJPY, AUDJPY or CADJPY.

After setting up chart the chart window of your chosen pair, right-click on the chart and point to **Templates** on the menu, then select "Trend Master". Your screen should look like the picture in the package I sent you. Like this:

Now, refer to the document titled "Trading Manual" to learn how to trade using this system. You are hereby advised to print out the **Trading Manual** and **Trading Doctrine** ebooks, and make them your "Trader's Bible" and "Trader's Textbook" respectively.
