

## GMTS-Dash

GMTS-Dash is a signal dashboard for the 'Genesis Matrix Trading System'. It displays the current matrix signals for multiple time-frames and the ADR.

- It is composed of the following indicators:
  1. TVI
  2. CCI
  3. T3 Moving Average
  4. Gann High/Low Indicator
- Display 1 to 4 time-frames of the current GMTS signals.
- Show optional ADR level calculated from daily candles.
- 2 Optional alerts that can be set to alert when specified time-frames line up.
- User configurable colors.
- 5 different arrow types.
- Position relative to the on top-left or top right corner. Positioning on the top left corner requires that the use of dlls is enabled.

### NOTE!

#### GMTS-Dash REQUIRES MT4 Build 419.

If it crashes your copy of MT4, remove it from the indicators folder and restart MT4.

Direct your complaints about crashes to Metaquotes who are responsible for the lack of backward compatibility and the stability of their product.

## Indicator Parameters

### TimeFrame.Settings

TimeFrame.1=M1

TimeFrame.2=M5

TimeFrame.3=M15

TimeFrame.4=H1

Timeframe:

M1,M5,M15,M30;H1,H4,D1,W1,MN1.

1,5,15,30,60,240,1440,10080,43200.

Do not display: 0 or NULL String.

TimeFrame.TF1BarNr=0

TimeFrame.TF2BarNr=0

TimeFrame.TF3BarNr=0

TimeFrame.TF4BarNr=0

Bar nr to display data for. 'Currently open bar'=0, 'Last closed bar'=1.

### TVI.Settings

TVI.r=12

TVI.s=12

TVI.u=5

TVI.Label=TVI

TVI r Period.

TVI s Period.

TVI u Period.

Label for TVI signal line.

### CCI.Settings

CCI.Period=20

CCI.Label=CCI

CCI Period.

Label for CCI signal line.

### T3MA.Settings

T3MA.Period=8

T3MA.b=0.618

T3MA.Label=GM

T3MA Period.

Volume factor.

Label for the T3MA signal line.
