**Trading Mastery**

# The 4 Step Process for *FOREX* Trading Mastery

1. Identifying Market Condition
2. Identifying a Trade Set-Up

Steps 1 & 2 were discussed in the 2<sup>nd</sup> Video...

## 3. Determining Trade Entry

- Look for a Powerful Price Pattern at SUPPORT (in an UPTREND) or at RESISTANCE (in a DOWNTREND) offering a high probability low-risk entry?

## 4. Trade Management

- Place Initial Stop Loss outside of the normal “ebb and flow” of the market... just below SUPPORT in an UPTREND or just above RESISTANCE in a DOWNTREND and pay yourself as the market makes money available to you and take profits at high probability logical attainable levels.
