

NinjaTrader is a high performance end to end trading platform for both discretionary and system traders that can be connected and used with your MBT Datafeed for free!

Free features include:

- Advanced Charting
- Market Analytics
- Automated Strategy
- Development
- Trade Simulation

You can also purchase a license that will allow you to execute live Futures, Forex, or Equities trades from their DOM based entry windows, Chart entry screen, or automated trading systems.

To get started, download NinjaTrader here:

http://www.ninjatrader.com/webnew/download_trading_software.htm

Once you have downloaded NinjaTrader, connect with MB by following the instructions found here:

http://www.ninjatrader.com/webnew/support_MB.htm

NinjaTrader Support:

NinjaTrader Online Events and Training: http://www.ninjatrader.com/webnew/trading_online_events.htm

Disclosure:

Please note that MB Trading does not support and is not responsible in any way for third party applications. Clicking any link below will navigate you away from the MB Trading web site.

Securities products are offered through MB Trading, member [FINRA](#), [SIPC](#). MB Trading Futures, Inc. (MBTF) is CFTC registered FCMs and member of NFA. MBTF offers execution and settlement services for futures based products, as well as offer off-exchange foreign currency (forex) products through MB Trading. Trading in futures, options and forex is speculative in nature and not appropriate for all investors. Investors should only use risk capital when trading futures, options and forex because there is always the risk of substantial loss. Account access, trade executions and system response may be adversely affected by market conditions, quote delays, system performance and other factors. ©2008, All Rights Reserved
