

There is Demo version of this panel Dashboard Super Three MA Demo in my product list, please try it out to get familiar with all functionalities free, [LINK](#).

This system basically utilizes PA and three adjustable Moving Average as the main indicator set to generate trading signal. With the feature that all MA_timeframe, MA_period, MA_applied_price are adjustable, you can easily create almost any MA trading system with this dashboard and perform autotrade on 28 pairs.

Here are some of the hot MA trading systems discussed on ForexFactory forum:

Cornflower Hourly System – [LINK](#)

Universal MA Cross EA by Firedave – [LINK](#)

A "new" simple system based on MA - [LINK](#)

Dashboard Super Three MA is an intuitive and handy graphic tool to help you to:

- Have 28 pairs under control with one dashboard.
- Monitor all 28 pairs and provide trading signals based on the MA entry rules (see screenshot1, 2, 3, 4, and 5).
- Manage order automatically once signal are generated.
- Monitor your positions easily with one glance to know status of all trading pairs.

Entry Rules:

Refer to screenshot1, 2, 3, 4, and 5

Make sure completing the following action items to make this dashboard working.

Important Action Items before Using Dashboard

1. For the first time loading Dashboard, it may takes 3-5 minutes to download historical data. For subsequent loading, it only takes a few seconds.
2. Make sure you have all 28 symbols in Symbol window.
3. To make your dashboard looks clear and neat, it's better to apply the black template. Please refer to screenshot6.
