

## **DIBS = Daily Inside Bar Setup**

**Dashboard The DIBS Method is one of the top 10 Forex trading system/method/strategy discussed in ForexFactory forum. So far there are 553 pages of hot discussion on this trading system. For more detail on this system, please re-direct to [LINK](#).**

**This system basically utilizes the popular candle pattern Inside Bar to generate trading signal mainly on timeframe H1.**

To facilitate you to understand and trade this system quickly and effectively, the collection of PDF manuals and tips are provided [HERE](#).

For who cannot access Google Drive, please find these resources in the thread or PM me.

**Dashboard The DIBS Method** is an intuitive and handy graphic tool to help you to:

- Have 28 pairs under control with one dashboard.
- Monitor all 28 pairs and provide trading signals based on the Inside Bar Trading rules (see screenshot 1, 2, 3, and 4).
- Manage order automatically once signal are generated.
- Monitor your positions easily with one glance to know status of all trading pairs.

### **Entry Rules:**

P2: Mother Bar

P1: Inside Bar

Refer to screenshot 1, 2, 3, and 4

Make sure completing the following action items to make this dashboard working.

### **Important Action Items before Using Dashboard**

1. For the first time loading Dashboard, it may take 3-5 minutes to download historical data. For subsequent loading, it only takes a few seconds.
2. Make sure you have all 28 symbols in Symbol window.
3. To make your dashboard looks clear and neat, it's better to apply the black template. Please refer to screenshot5.
