

There is Demo version of this panel Dashboard Timeframe 15 Demo in my product list, please try it out to get familiar with all functionalities free, [LINK](#).

Dashboard Timeframe 15 is one of the top 2 forex trading system/method/strategy discussed in ForexFactory forum. So far there are 1441 pages of hot discussion on this trading system. For more detail on this system, please re-direct to [LINK](#). This system basically utilizes TDI as the core indicator to generate trading signal mainly on timeframe M15. The signal will be further filtered and trimmed by 1) EMA200 and PA; 2) EMA10 and HA; 3) Round number.

To facilitate you to understand and trade this system quickly and effectively, the collection of PDF manual and all indi are provided [HERE](#).

For who cannot access Google Drive, please find these resources in the thread or PM me.

- PDF Manual
- Two Indicators: place them under /MQL4/Indicators/

Dashboard Timeframe 15 is an intuitive and handy graphic tool to help you to:

- Have 28 pairs under control with one dashboard.
- Monitor all 28 pairs and provide trading signals based on the Timeframe15 rules (see screenshot1, 2, 3, and 4).
- Manage order automatically once signal are generated.
- Monitor your positions easily with one glance to know status of all trading pairs.

Entry Rules:

Refer to screenshot1, 2, 3, and 4
