EA repeat entry as long as is activated or until TP reach or out of the money.

in terminal S/L & T/P is always 0.00 that means when EA not active or MT4 shut down **ORDERS WILL NOT BE CLOSED**

broker doesn't have clue about you attentions that means they are virtual **pending orders, TP & SL are not visible to broker**

as always test it on demo and report bug(s), or you just have an **Idea** how to improve tool report back to us
